

## Life Is Anew

Santana

Nothing is new, they say, under the sun  
But then again my soul feels a change  
It feels so new  
Life is an open vision of the highest, deepest

Because of you, life is new  
Because of you, life is new

Alone, I try to change the world  
Only to find that I had bared  
You came along and with the wave of your hand  
You showed us the weight

Because of you, life is new  
Because of you, life is new

Because of you, life is new  
Because of you, I can fly in the sky, your home
