

# One with the Sun

Santana

We're in time with music  
Of the universe  
Doctor of Mother Earth  
We are all one, we are all one with the sun

Reflecting words to say  
Silently I want to be

With symphonies of stars you came  
Singin' through my soul  
I see you in the golden sunset  
Glowin' through my soul

In the summerdays  
We went to the sea  
How smooth it laid, how calm against these skies?  
Dancin' in your eyes

With symphonies of stars you came  
Singin' through my soul  
I see you in the golden sunset  
Glowin' through my soul

We're in time with music  
Of the universe  
Doctor of mother earth  
We are all one, we are all one with the sun

We are all one with the sun
