

## Open Invitation

Santana

You be you and let me be me  
No strings attached emotionally  
I wanna get a little crazy  
That's puttin' it plain  
You got the medicine  
And I got the pain

When you just wanna feel good  
Like the doctor said  
One good dose of loving  
It's gonna straighten out your head

You got an open invitation  
On that you can rely  
You got a prepaid reservation  
And that's the only way to fly

Let's make love, the feeling is right  
Just passing by like ships in the night  
Oughta get a little friendly  
There's no time like now  
You bring the attitude and I'll show you how

Anytime you're ready  
Anytime at all  
Just come on over  
Don't even have to call
