

## Stand Up

Santana

Love brings a change  
I want to take a chance  
And let it grow  
I trust my feelings  
I want to be with you  
Wherever you go

Oh baby  
We're more than friends  
So precious it should never end  
Oh baby  
Can't help but win

Stand up, say it loud  
What we need is a lot more love  
Stand up, say it loud  
What we need is a lotta good good love

Tonight is our turn  
We have the opportunity  
Don't be afraid  
Want to make you happy  
Satisfy the dreams inside our heads

Ooh daylight comes around so fast  
I want to make this evening last  
Ooh baby, I've given my best

Stand up, say it loud  
What we need is a lotta love  
Stand up, shout it out  
What we need is a lot more love

Ooh baby, new dreams to share  
And someone that will truly care  
If you're lonely  
I will always be there

Stand up, say it loud  
What we need is a lot more love  
Stand up, shout it out  
What we need is a lotta good good love
