

# You Are My Kind

Santana

Stay with me baby  
And that's all I ask of you  
And I know that someday  
You won't remember  
The way that this moment feels to you  
Don't let it go  
Don't turn your back on what you think you know  
You never know you know  
Don't leave it alone  
Cause I need you to cling to

Cause you are my kind  
You're all that I want  
Here in this life  
Until we are gone  
Our breath and our skin  
Our hearts and our minds  
They're one and the same  
You are my kind

Well call on me baby  
If you should ever need someone  
To help get your head straight  
I'll be your resident all night  
Sure am glad just having you around  
Well all that I know  
When you find love you never let it go  
You never know you know  
Without you I'm lost  
I get scattered  
I'm shattered

Cause you are my kind  
You're all that I want  
Here in this life  
Until we are gone  
Our breath and our skin  
Our hearts and our minds  
They're one and the same  
Cause you are my kind  
We're one and the same  
You are my kind

Don't let it go  
Don't turn your back on what you think you know  
You never know you know  
Don't leave it alone  
Cause I need you to cling to

Cause you are my kind  
You're all that I want  
Here in this life  
Until we are gone  
Our breath and our skin  
Our hearts and our minds  
They're one and the same  
Cause you are my kind

I love and our life  
My heart and my soul  
Need you tonight  
Your love makes me whole  
And it's all I can stand  
Until you come home  
I need you tonight  
Cause you are my kind  
I need you tonight  
Cause you are my kind

Oh, Oh, Oh, Oh you are my kind  
Oh, Oh, Oh, Oh you are my kind
