

Yours Is the Light

Santana

Yours is the light that will always shine
And shine eternally, eternally
Mine is the search, never ending search
Until I am with you
For you, fill my life
All my days and nights
With memories of you

Yours is the light that will always shine
And shine eternally
Mine is the search, never ending search
Until I am with you
For you, fill my life
All my days and nights
With memories of you
