

Say Aha

Santigold

Louder than they
Louder than they
Louder than they
Allow, allow

Louder than they
Louder than they
Louder than they
Allow, allow

Say aha, aha
Say aha, aha

At night it's eating up your head,
Backed against the wall
Got you in a tight place
Though you're not alone at all
Been fighting, trying to place a name on what it's called
Make you feel like a losing streak
'Cause you know, but you're not involved

Louder than they
Louder than they
Louder than they
Allow, allow

Louder than they
Louder than they
Louder than they
Allow, allow

Say aha, aha
Say aha, aha

It's all right, 'cause everything they say
Doesn't make no sense
It's that time
I'm picking up my ass up from off the fence
Gonna blow a hole in this charade
It's self defense
I'm a army, got a whole brigade in my two sense

Louder than they
Louder than they
Louder than they
Allow, allow

Louder than they
Louder than they
Louder than they
Allow, allow

Say aha, aha
Say aha, aha

Send in your torpedoes for all they know
Make a show, shake them up before you blow

'Cause they don't want no cure
No, you'd better find a way
Their aim's not pure

Louder than they
Louder than they
Louder than they
Allow, allow

Louder than they
Louder than they
Louder than they
Allow, allow

Say aha, aha
Say aha, aha
