

Do it again  
And I'll see you tomorrow  
I want to get it  
You've got something to borrow

Can't make it feel right on my own  
That's when I turn you on again  
I buy it, but it don't measure up  
What is the missed ingredient?

I, I see you fade  
I, I see you fade away  
I, I see you fade  
I, I see you fade away

Under the skin  
It's not so easy to swallow  
Don't reel me in  
To find my dreams are so hollow

What is it you got I don't get?  
I watch you fumbling again  
Look dreamy behind your cigarette  
Know it ain't true now

I, I see you fade  
I, I see you fade away  
I, I see you fade  
I, I see you fade away

We all find you easy, so amuse us  
Don't get too heady you might abuse luck  
You're starstruck

I, I see you fade  
I, I see you fade away  
I, I see you fade  
I, I see you fade away
