The Riot's Gone

I've been looking for a fight All the trouble that I know Trying to lose the world inside But it's got no place to go

Oh I'm armed and dangerous At the whim of my command I've been searching for an angle For a cause I can defend

Oh take me home Let me go all day Just be here til I know Til I know that the riot's gone, the riot's gone away

I've been haunted all my life On the brink of something close People know that I ain't right Know I'm grappling with a ghost

Oh I'm armed and dangerous, And I'm deafened by the fray Waiting for the day I'm able And I said it all this way

Oh take me home Let me go all day Just be here til I know Til I know that the riot's gone, the riot's gone away
