

# Deep Down

Saosin

I'm seeing the ocean is rising  
Let the water wash it all away  
Feel like there's never tomorrow  
When there's no escaping yesterday  
Do you ever miss that feeling?  
Don't pretend like you're the one who's lost  
I can see the ocean is rising  
And I keep sinking

Deep down  
It's getting hard to breathe now  
I'm reaching out to touch you  
And I can't feel at all  
No I can't feel at all

I watch the waves from underwater  
See the ocean push you all the way  
Live like there's no today  
Do you ever get that feeling  
You're the only one who ever pays a cost  
Well I'm just as lost

Deep down  
It's getting hard to breathe now  
I'm reaching out to touch you  
And I can't feel at all  
Deep down  
It's getting hard to breathe now  
I'm reaching out to touch you  
And I can't feel at all  
No I can't feel at all

Save yourself, if nothing else  
You should save yourself, if nothing else  
Save yourself, if nothing else  
You should save yourself, if nothing else

The oceans rise above me  
Will the water help me find my way  
Wash it away

Deep down  
It's getting hard to breathe now  
I'm reaching out to touch you  
And I can't feel at all  
Deep down  
It's getting hard to breathe now  
I'm reaching out to touch you  
And I can't feel at all  
No I can't feel at all
