

Second Guesses

Saosin

Keep it safe
Stop watch
Is it cold
Have I been dishonest?
Or has, has the weather
Become the excuse for what I did?
Evening eyes
Divisionless
So much more than they hoped for

(There's a reason why nothing?)
Search along the dead river
Needle in the hay you founds you out
Nothing you can fall back on

In the way it felt
I can see it was real
I won't be the only one carrying on

Is it gone?
Is it cold to the touch?
Has it been forgotten?
Or has, has the autumn sun
And on the ghost of what I want

(There's a reason why nothing?)
Search along the dead river
Needle in the hay you hounds you out
Nothing you can fall back on

In the way it felt
I can see it was real
I won't be the only one carrying on
No one could have known
All of our pockets had holes
Sober up and you can see
More than what you wanted

Time won't lead you anywhere
Move forward into it
I can see the difference
What are you waiting for?
Time won't lead you anywhere
Move forward into it
I can see the difference
What are you waiting for?

In the way it felt
I can see it was real
I won't be the only one carrying all the blame
No one could have known
All of our pockets had holes
Sober up and you can see
More than what you wanted
