

If I Run

Sara Evans

You know they say that you're first heart brake
Can forever change the way you see love
But that scary one is how they broking more than once
They say it's twice as hard to get you heart to trust

So baby can you tell you this?
Can I, can I know your promises
Are you gonna be the one that sticks

If I run baby will be chasing
Be the one how walks the same me
Never walk away no matter what
If I was lost would you come and find me
But I forget what you remind me
That how I am will always be enough
If I run, if I run

Don't wanna make you feel bad
Or make you pain from the past
I'm so sorry that sometime I get twist it up
I'm not saying that I doubt the way you feel
I'm not saying what you're saying is unreal
I just wanna know the deal

If I run baby will be chasing
Be the one how walks the same me
Never walk away no matter what
If I was lost would you come and find me
But I forget what you remind me
That how I am will always be enough
If I run, if I run

And if I'm broking, seeing I gotta know it
Really know it

If I run baby will be chasing
Be the one how walks the same me
Never walk away no matter what
If I was lost would you come and find me
But I forget what you remind me
That how I am will always be enough
If I run, if I run
Baby if I run, if I run
