

# Put My Heart Down

Sara Evans

I never pictured us ever fighting this much  
Thought we were figured out but it's so messy now  
Your words they cut so deep and I think that you should leave  
I'll have to live without what I can't live without  
It already hurts  
So before it gets worst just

Put my heart down, put my heart down  
Put my heart down, put my heart down  
And walk away  
Just like it was  
A loaded gun  
Put my heart down, put my heart down  
Put my heart down, put my heart down  
And walk away  
This kind of love  
Is dangerous

So pack up all your things and just leave some air to breathe  
A million toxic tears falling like rain 'round here  
This is the final hour  
The end of our story tonight  
And I don't wanna fight

So put my heart down, put my heart down  
Put my heart down, put my heart down  
And walk away  
Just like it was  
A loaded gun  
Put my heart down, put my heart down  
Put my heart down, put my heart down  
And walk away  
This kind of love  
Is dangerous

Oh, it already hurts  
So before it gets worse  
I know it ain't easy  
But if you really loved me

Just put my heart down, put my heart down  
And walk away, yeah

Just put my heart down, put my heart down  
Put my heart down, put my heart down  
And walk away  
Just like it was  
A loaded gun  
Put my heart down, put my heart down  
Put my heart down, put my heart down  
And walk away  
This kind of love  
Is dangerous
