

# Wildfire

Sara Evans

I'd been on the mountain way too long  
The winds blow fiercer when that sun is gone  
It got so cold and lonely every night  
I just prayed for something warm to melt that ice  
Yeah, I was out here freezing  
'Til you covered me in feelings  
This spark you lit inside me just won't die

Your love's like wildfire  
Running though my heart  
Running through my veins  
I hope it never rains  
Cause I'm burning in desire  
But I don't feel the pain  
I'm dancing in the flames  
I'll never be the same  
Wildfire, wildfire  
You can't kill this wildfire

You could be a million miles from me  
And I would still be feeling all your heat  
'Cuz you're the kind of man you can't escape  
And even if I tried to run away

Your love's like wildfire  
Running though my heart  
Running through my veins  
I hope it never rains  
Casue I'm burning in desire  
But I don't feel the pain  
I'm dancing in the flames  
I'll never be the same  
Wildfire, wildfire  
You can't kill this wildfire

Wildfire, ooh babe

I was on that mountain way too long  
The light was almost out but now it's on

Your love's like wildfire  
Running though my heart  
Running through my veins  
I hope it never rains  
Cause I'm burning in desire  
But I don't feel the pain  
I'm dancing in the flames  
I'll never be the same

Your love's like wildfire  
And it's running though my heart  
Running through my veins  
I'll never be the same  
Wildfire, wildfire  
You can't kill this  
Wildfire, wildfire  
You can't kill this wildfire
