## **Everyday Miracles**

## Sara Groves

It's the everyday miracles that keep my hope alive It's the way You move in little things that help me survive And I know You move in greater ways But this is great enough for me What You do with my everyday is amazing

The things that seem impossible, I lay down at Your feet And just when I am needing most You are there for me And I know you've made the lame to walk And caused the blind to see But what You do with my everyday is amazing

When I'm down on my knees And I can't make it through When it's up to me It's really up to You
