

# Just One More Thing

Sara Groves

There's always just one more thing  
There's always another task  
There's always I just have one more small favor to ask  
And everything is urgent and everything is now  
I wonder what would really happen if I stopped somehow

I'll be there in a minute  
Just a few places to go  
You wake up a few years later and your kids are grown  
And everything is important  
But everything is not  
At the end of your life your relationships are all you're got

And love to me is when you put down that one more thing and say  
I've got something better to do  
And love to me is when you walk out on that one more thing and  
say  
Nothing will come between me and you  
Not even one more thing

There will never be an end to  
The request upon your time  
It's your place to stand up and tell the world  
You've got to rest awhile  
And everything is important  
But everything is not  
At the end of your life your relationships are all you've got

And love to me is when you put down that one more thing and say  
I've got something better to do  
And love to me is when you walk out on that one more thing and  
say  
Nothing will come between me and you  
Not even one more thing
