

Station Wagon

Sara Groves

Honey help me pack up the station wagon
I'm eager to leave even though my feet are draggin'
if we can get on the road by sunset
we'll forget about what we haven't done yet
help me pack up the station wagon

Honey go put the baby in the car seat
we're almost ready and by the way I'm sorry
in all this hurry I forgot to be kind
I got so worried that I lost my mind
by the way I'm sorry

Honey I'm happy and I feel so alive
I can't believe that we just took the dive
the water sometimes it's deep and cold
but it's a beautiful place for growin' old
honey I'm happy and I feel so alive
