

The One Thing I Know

Sara Groves

And the clouds just parted
On a corner of my life
And I can see for miles

And the things I was stuck on
Things I thought would never change
They just broke open wide

This is the one thing I know
You said You won't let me go
You said You won't let me go
You've done a good work in me
And You won't quit till I'm free

And the veil just lifted
I can finally understand
The way You work in me
But even if I didn't
You are still a sovereign God
Who has a plan for me

This is the one thing I know
You said You won't let me go
You said You won't let me go
You've done a good work in me
And You won't quit till I'm free

It's good to know You work
With hurt and broken souls
That You'll take a soul like mine

And in all the world
Nothing's taken hold of me
Like Christ

This is the one thing
This is the only thing
You are the one thing
You are the only thing

This is the one thing I know

This is the one thing I know
You said You won't let me go
You said You won't let me go
You've done a good work in me
And now You making me free

This is the one thing I know
You said You won't let me go
You said You won't let me go
You've done a good work in me
And You won't quit till I'm free

This is the one thing I know
This is the one thing
This is the one thing
