

# Feel Me Break

Sarah Bettens

You can do all that  
And fall into me  
You can have your way

And I, I'll be watching  
You want me inside

Can you feel me break  
Can you hear me slide into the depths your body shades

I can feel all that  
The breath of your hand  
You are everywhere

And I, I'll be talking  
I'll let it all go

Can you feel me break  
Can you hear me slide into the depths your body shades

Time can't stop, but I can make it last in me  
I want it to last in me  
I want it to last in me

Can you feel me break  
Can you hear me slide into the depths your body shades  
Can you hear me slide into the depths your body shades
