Drags Me Down

Sarah Blackwood

moon shiner come find her
she's broken by the river
and just can't find her heart
oh this devil drags her down
sweet sixteen
seen things you ain't ever seen
still got his eyes open
on following a dream
but he don't know
that this devil will drag him down

but I, I, I, I know this devil drags them down

tonight has finished me off again
I just can't keep up
and try to kick the drink
but my baby knows
that this devil drags me down
long nights make for longer days
you'll never see it coming
till it puts you in your place
but I, I know
that this devil will drag me down

but I, I, I, I know this devil drags me down

it ain't so tough being all alone until you just can't take being all alone you can't keep on closing and locking all your doors cause darling you get older it ain't easy anymore

but I, I, I, I know this devil drags me down and I, I, I, I know this devil drags me down and I, I, I, I know this devil drags me down and I, I, I, I know this devil drags me down and I, I, I, I know this devil drags me down and I, I, I, I know this devil drags me down and I, I, I, I know
