

Long Road

Sarah Blackwood

it's a long road
going all these places I ain't ever known
and there ain't nobody here to tell
tell me which way is heaven
and which way is hell
but I, keep saying that all we got is time
and I, hope to God I'm right

fell in love a hundered times
wrote about a boy that made this girl smile
and we all know broken hearts put up a fight
shed a hundered more tears when we had to say goodbye
but I, keep saying that all we got is time
and I, hope to God I'm right

knowing it's the little things
bringin' us down
like nothin lasts forever
or the sun is coming down
one day I watched the sunset
and it changed my whole life
oh and I, hope to God I'm right

met a hundered souls while living this here life
had to watch them go
and watch them fall another night
sang a hundered songs about it in my life
I can never find the words to tell the stories just right
but I, yea I,
I, hope to God I'm right
