

## At Your Best

Sarah Blasko

It's you against the world, I don't think so  
They wouldn't stand a chance now girl  
And even when your back's on the ropes  
I can tell, you'll get them by the final bell

If only you were at your best  
Instead of fighting yourself as well  
If only you were at your best  
Instead of fighting yourself

You're high above the world, I don't think so  
If you're hanging around me girl  
And even when you try to call  
I know you stall, you climb another story tall

If only you were at your best  
Instead of fighting yourself as well  
If only you were at your best  
Instead of fighting yourself

Don't let your mind change you this time  
Don't let the tide turn you tonight

If only you were at your best  
Instead of fighting yourself as well  
If only you were at your best  
Instead of fighting yourself
