

We won't run

Sarah Blasko

Pages turning
Lights are burning
See what you could not see
As plain as the day
The night makes you pay for
What was hidden underneath

Longing to leave but
Begging to feel that
Something will make you stay
Gotta believe that this all leads
To somewhere we've never been

We won't run, we can fight
All that keeps us up at night
There is far to go now
Let's not waste a minute more
In denial

I always thought you knew yourself
Better than anyone
The season was lost
And you started listening
To everyone else

But cast in as devil
I've got the medal
The means to make things right
Tired of guilt
Tired of being sorry
Haven't we suffered enough?

We won't run, we can fight
All that keeps us up at night
There is far to go now
Let's not waste a minute more x 2

Oh, then our eyes will be open x

We won't run, we can fight
All that keeps us up at night
There is far to go now
Let's not waste a minute more

We won't fear, we can fight
All that we can bring to light
There is far to go now
Let's not waste a minute more
Of our lives
Our lives
Our lives
Of our lives
Our lives
Our lives
