

# Your Way

Sarah Blasko

You've got a way  
That makes the darkness light  
The earth seem holy  
Spark in your eye  
Ignites the fire in my heart

My fever is high  
My throat is dry  
Whenever you're around me  
It's in your way my love  
That always unbounds

It's in the way you move me darling  
It's in the way you come and go  
It's in the way the colours are drifting slowly  
It's in the way  
It's in the way

Right when I thought  
My life was mine  
My heart was working for me  
I realised this blood  
Was flowing for you

'Cause your ways  
Have made the seasons fade  
Into an endless summer  
The coldness of winter only felt  
When you're gone

It's in the way you move me darling  
It's in the way you come and go  
It's in the way the colours are drifting slowly  
It's in the way  
It's in the way

'Cause hours seem to disappear  
When we are together  
'Cause when you're near  
The words seem clear  
And I am brought to life  
Life  
Life

It's in the way you move me darling  
It's in the way you come and go  
It's in the way the colours are drifting slowly  
It's in the way  
It's in the way

It's in the way you move me darling  
It's in the way you come and go  
It's in the way the colours are drifting slowly  
It's in your way  
It's in your way alright  
Alright

It's in the way you move me darling
