

Closer

Sarah Brightman

I'm ready for love for the first time
Ready for love and I know
I'm coming home to the stars
My heart is in flight
My dreams are alive, I can feel it
I know that there's something insight

I'm falling into the sky
It's taking me over now
I'm getting closer now

Oh, I'm feeling closer now
Feels like riding a wave
You're like the sun and your light just radiates.

I'm ready for love for the first time
Ready for love and I know
I'm coming home to the stars
My heart is in flight
My dreams are alive, I can feel it
I know that there's something insight

I'm falling into the sky
It's taking me over now
I'm getting closer now

Oh, I can feel it again
Oooh
It's taking me over now

I'm ready for love
I'm ready for love for the first time
Take me away
Take me away to the stars

I'm ready for love for the first time
Ready for love and I know
I'm coming home to the stars

My heart is in flight
My dreams are alive I can feel it
I know that there's something insight

I'm falling into the sky
It's taking me over now
I'm getting closer now

Running, running, running
Ahh-ahhhh ...
