

## Closer

Sarah Brightman

I'm ready for love for the first time  
Ready for love and I know  
I'm coming home to the stars  
My heart is in flight  
My dreams are alive, I can feel it  
I know that there's something insight

I'm falling into the sky  
It's taking me over now  
I'm getting closer now

Oh, I'm feeling closer now  
Feels like riding a wave  
You're like the sun and your light just radiates.

I'm ready for love for the first time  
Ready for love and I know  
I'm coming home to the stars  
My heart is in flight  
My dreams are alive, I can feel it  
I know that there's something insight

I'm falling into the sky  
It's taking me over now  
I'm getting closer now

Oh, I can feel it again  
Oooh  
It's taking me over now

I'm ready for love  
I'm ready for love for the first time  
Take me away  
Take me away to the stars

I'm ready for love for the first time  
Ready for love and I know  
I'm coming home to the stars

My heart is in flight  
My dreams are alive I can feel it  
I know that there's something insight

I'm falling into the sky  
It's taking me over now  
I'm getting closer now

Running, running, running  
Ahh-ahhhh ...
