

Harem

Sarah Brightman

Burning sands winds of desire
Mirrored the waves that reflect a burning fire within my heart
Un-watered, feeding the flame
Welcoming you to my Harem

Sing for me a song of life's visage
Sing for me a tune of love's mirage

In his eyes sleep untold
Whispers that echo the days of all my soul
I hold your Eastern promise close to my heart
Welcoming you to my Harem

Sing for me a song of life's visage
Sing for me a tune of love's mirage

Time is change times will move us now
No escape, the passing sands of time
I hold your Eastern promise close to my heart
Welcoming you to my Harem
