

# Ship of Fools

Sarah Brightman

Remember the day  
When I first set my eyes on you and  
You said the same  
Seemed like everything was right for us

Endless nights of loving  
All my doubts and fears went away  
So tell me what went wrong  
Now I need you

Do anything to get to you  
'Cos we're riding on a ship of fools

Now you're not the same  
And all that's left are memories of  
The times we had  
Seems like it always has to end this way

But now know your secrets  
And the time is right to tell  
To tell me what went wrong  
Can you hear me?

Do anything to get to you  
'Cos we're riding on a ship of fools

Do anything to get to you  
'Cos we're riding on a ship of fools
