

# I Wanna Touch U There

Sarah Connor

Oh baby when the night  
Falls on you and I  
I want to be with you and share each breath you're breathing  
And I want your heart  
Want it pressed so close to mine  
I want to lose myself forever in this feeling

I can't wait to feel that heaven in your arms  
So tell me how to get,  
Get to your heart

I want to touch you there  
I want to touch your heart  
I want to make you love me  
I want to be the one to touch you everywhere  
So deep inside your soul  
I want to make you feel a love  
So real so deep so true  
Your heart your soul and everywhere  
I want to touch you there,  
I want to kiss you there  
I want to touch you there

Oh baby want your eyes  
Want them looking into mine  
I want to see the things that they will be revealing  
And I want your lips  
Want to hear them say my name at night  
I want to be in each exiting dream you're dreaming

I can't wait to taste your kisses in the dark  
And I can't wait to get,  
Get in your heart

Want to hold you in my arms tonight  
Lie beside you while you sleep  
Fill your world with love so strong  
A love that goes so deep  
I want to touch you  
In your heart
