

# Keep the Fire Burnin

Sarah Connor

[Verse 1:]

You don't get what you're giving  
And the harder they climb the softer they fall  
Only time can not heal this  
And I learned that sometimes  
Two eyes don't see better than one

[Bridge:]

Because  
What people say and people do  
It doesn't fit together  
But you and me  
Is me and you

[Chorus:]

So let's take it back  
To what we once had  
To our love we'll be returning  
And we keep the fire burning

And it will not go out  
We will stand all doubts  
We can't stop the world from turning  
But we keep the fire burning

Let's take it back  
Keep the fire burning

[Verse 2:]

Judge a book by it's cover  
And speak your famous words worthwhile  
The looser takes all  
Gone today. here tomorrow  
When I look in your face  
Its like  
You're a million in one  
And there for...

[Bridge:]

There's more to say  
There's more to do  
We'll never mind the weather  
The strength I need  
Is the strength in you

[Chorus:]

So let's take it back  
To what we once had  
To our love we'll be retuning  
And we keep the fire burning

And it will not go out  
We will stand all doubts  
We can't stop the world from turning  
But we keep the fire burning

Everyone has to find

Something good and something right.  
Cos we only got this one short life  
I'll never let you leave my side  
From now on we will live our lives as one

[Chorus:]

So let's take it back  
To what we once had  
To our love we'll be returning

And it will not go out  
We will stand all doubts  
We can't stop the world from turning  
We'll keep the fire burning

So let's take it back  
To what we once had  
To our love we'll be returning  
And we keep the fire burning

And we keep the fire burning  
So let's take it back  
And we keep the fire burning
