

# Make U High

Sarah Connor

I'm gonna make you high, high  
When you're feeling low, low  
Show you all the joy, joy  
You've never seen  
And then we do it right, right  
Lovin' you in slow mo  
This is what you get  
If you're gonna be with me  
I'm gonna make you high, high  
When you're feeling low, low

Hey boy, I've been watching you  
Been thinking of  
What we could do  
And now I know you can feel it too  
We're gonna come together every night  
And hey you, come on over here  
I surely feel  
The time is near  
And in my mind I can see it clear  
I show you how it's gonna be alright  
So

Better stop to mess around  
It's the night we're gettin' down  
Gonna take you higher  
We can do it now

I'm gonna make you high, high  
When you're feeling low, low  
Show you all the joy, joy  
You've never seen  
And then we do it right, right  
Lovin' you in slow mo  
This is what you get  
If you're gonna be with me  
I'm gonna make you high, high  
When you're feeling low, low  
Everything you want, want  
Get it from me  
I hold you very tight, tight  
want to let it grow, grow  
This is what you get  
If you're gonna be with me

Now I got you hypnotized  
It's always me  
Who's on your mind  
Come over here, baby, don't be shy  
We're gonna play together every night  
And no one's stoppin' you and me  
They have to face  
Reality  
There is no chance, we're in ecstasy  
And stay there 'til the dawning of the day

Lada dia da

I can show you all  
Lada dia da  
You want to know  
I'm gonna make you high, high  
When you're feeling low, low

I'm gonna make you high, high  
When you're feeling low, low  
Show you all the joy, joy  
You've never seen  
And then we do it right, right  
Lovin' you in slow mo  
This is what you get  
If you're gonna be with me  
I'm gonna make you high, high  
When you're feeling low, low

I'm gonna make you high, high  
When you're feeling low, low  
Show you all the joy, joy  
You've never seen  
And then we do it right, right  
Lovin' you in slow mo'  
This is what you get  
If you're gonna be with me  
I'm gonna make you high, high  
When you're feeling low, low
