

# Put Your Eyez on Me

Sarah Connor

Just two years ago there didn't nobody know  
'bout a crazy girl suddenly part of the show  
She's singing and she's trying to bring  
A little music to your heart, oh yeah

A crazy game but who is to blame  
Unfortunately always the same  
'Cause when you're famous  
Every word you say and every move you make  
Is judged by everyone

Put your eyes on me  
Can I get a witness I'm no perfect girl  
Put your eyes on me  
All I wanna do is play my music to the world  
Put your eyes on me  
Giving just a hundred percent from me to you  
Put your eyes on me  
What you get is credibility baby  
So come into the groove

So now I'm telling you about there ain't no doubt  
Not all I do is very cute from me  
I'm often talking much too much  
Get with people in touch  
Who never see the me in me, oh no  
I stand accused, there ain't no use  
For me in getting out of my shoes  
I say I'm guilty  
But who is able to cast the first stone  
They all had done the same

Put your eyes on me  
Can I get a witness I'm no perfect girl  
Put your eyes on me  
All I wanna do is play my music to the world  
Put your eyes on me  
Giving just a hundred percent from me to you  
Put your eyes on me  
What you get is credibility baby  
So come into the groove

It doesn't matter what you do  
As long as you stay pure and true  
You'll never comfort everyone  
No risk and there's no fun  
It doesn't matter who you are  
As long as you know you're the star  
There's no one else to play your part  
Just keep that in your heart  
Put your eyes on me

Put your eyes on me  
Can I get a witness I'm no perfect girl  
Put your eyes on me  
All I wanna do is play my music to the world  
Put your eyes on me

Giving just a hundred percent from me to you  
Put your eyes on me  
What you get is credibility baby  
So come into the groove

Put your eyes on me  
Can I get a witness I'm no perfect girl  
Put your eyes on me  
All I wanna do is play my music to the world  
Put your eyes on me  
Giving just a hundred percent from me to you  
Put your eyes on me  
What you get is credibility baby  
So come into the groove
