

# Real Love

Sarah Connor

[Verse 1:]

When you're holding me  
I can breathe, there's such a piece  
So please, couldn't I try  
For a change, ease in your mind  
Instead of worry do what I do  
Say until you start to believe it

[Chorus:]

I've got a real love  
And baby it's enough  
I know that it's gonna see me through  
I've got a real love  
And 'cause of it I  
I'll be fine  
I'll survive  
I've got a real love  
In you

[Verse 2:]

I been were you are  
In the dark & sick at heart  
So I get it, I swear  
But do you call me, I'm there  
Instead of being strong on your own  
Let me say until you believe it

[Chorus:]

I've got a real love  
And baby it's enough  
I know that it's gonna see me through  
I've got a real love  
And 'cause of it I  
I'll be fine  
I'll survive  
I've got a real love

[Bridge:]

No matter what the future brings  
I'll face it with you  
Oh, everything  
The light of day  
The dark of a night  
Together, yeah, we'll be alright  
Because

[Chorus:]

I've got a real love  
And baby it's enough  
I know that it's gonna see me through  
I've got a real love  
And 'cause of it I  
I'll be fine  
I'll survive  
I've got a real love  
In you
