

# Soothe My Soul

Sarah Connor

Some time ago my life was gettin' out of hands  
I thought I'd lose my mind I didn't see a chance  
There was no ending to the trouble in my heart  
No matter where I looked my world seemed to fall apart  
But you were there to hold me up and make me strong  
You found a way for you and me to carry on

There's a silver lining in the darkest cloud  
When I'm down and out I take a look around  
All the love and joy you brought to my home  
You soothe my soul, baby, you soothe my soul  
When there ain't nobody nowhere's left to turn  
Still I'm warm and safe 'cause for you I burn  
When my life is getting out of control  
You soothe my soul, baby, you soothe my soul

Ah ah ah ah, you soothe my soul  
Ah ah ah ah, you soothe my soul

Sometimes I struggle and my goals get outta reach  
You come to ease my mind and give me energy  
You look behind the show of sexy Sarah C.  
You know about my fears and insecurities  
Joy and pain together, yes, we had it all  
Sometimes we fly so high, and yes, sometimes we fall

There's a silver lining in the darkest cloud  
When I'm down and out I take a look around  
All the love and joy you brought to my home  
You soothe my soul, baby, you soothe my soul  
When there ain't nobody nowhere's left to turn  
Still I'm warm and safe 'cause for you I burn  
When my life is getting out of control  
You soothe my soul, baby, you soothe my soul

Won't back down, I won't back down  
Baby I won't back down, I won't back down

Won't back down, I won't back down  
When you're with me, I'll stand my ground  
I won't back down
