

## Time 2

Sarah Connor

Ha-Ha Ha-Ha Ha  
Ha-Ha Ha-Ha Ha

Did you know I crossed so many tears that I couldnt even feel the rain

Did you know that you hurt me so bad and nothing could ever heal the pain

The trust is gone  
The feeling is gone  
Every thing's gone, I know

How you tied me up and hit me locked down in your invisible chains

Ha-Ha Ha-Ha Ha  
Ha-Ha Ha-Ha Ha

Now it's time that I leave you  
That my mind wont back down  
Cuz I know who's lovin' who  
I suppose that I, I was blinded some how  
Guess I had to come back just to see that it was right to me  
And know when make me stronger  
So it's time that I leave you  
Cuz, now it's the time the time  
The time to

You said it was time unless that never did it but not again

But the trust is gone  
Gone  
Did it gone?!  
Gone  
Every thing is gone  
You know

No matter how you twist and turn so randomly for the begin

OOh, yea

Now it's time that I leave you  
That my mind wont back down  
Cuz I know who's lovin' who  
I suppose that I, I was blinded for some how  
Guess I had to come back just to see that it was right to me  
Cant say no when make me stronger  
It's time that I leave you  
Cuz now it's the time the time  
The time to  
Cuz every thing we did, we know  
That day was a turn, the way just burn  
Did you know I crossed so many tears that I couldn't even feel the rain

Oh,  
Turn Turn  
Turn Turn [x2]

Now it's time that I leave you

That my mind wont back down  
Cuz I know who's lovin' who  
I suppose that I, I was blinded some how  
Guess I had to come back  
Just to see that you was right to me

Cant say no when make me stronger  
So it's time that I leave you  
Cuz now it's the time the time  
The time to  
Now it's time that I leave you  
That my mind wont back down  
Cuz I know who's lovin who  
I suppose that I was blinded some how  
Guess I had to come back just to see that it was right to me

Oh, yea  
And know when you make me stronger  
So it's time that I leave you  
Cuz now it's the time the time  
The time to

The trust is gone  
Did it gone?!  
Every thing is gone  
Gone [x6]
