

# Toxic

Sarah Darling

How did you just stop moving  
There where you lost it all  
Like you're watching the same old movie  
And you missed your curtain call  
How do you get off thinking  
You could walk through my door

You should know that it's toxic baby  
We can never go back  
There's a line don't you cross and save me  
Save yourself

You know I've long forgiven  
But you won't forgive yourself  
There's nothing here for you now  
I'm keeping it on a shelf

You should know that it's toxic baby  
We can never go back  
There's a line don't you cross and save me  
Save yourself

Ooh

I'm no good for you  
You're no good for me  
You got to save yourself  
It's what you got to do

You should know that it's toxic baby  
We can never go back  
There's a line don't you cross and save me  
Save yourself

Save me  
Save me  
Save yourself
