

Orchids

Sarah Fimm

We're flowers, you and I.
We share a light.
I need you.
We're Orchids.

But I long to love you like flowers do
Just to feel your sweet perfume
I want you.
We're Orchids.

Will we never get to be?
Will I ever get to be?
Will I ever get to feel you in me?

The seeds lie unaltered
But on some planet, on some other moon.
We bloom still.
I love you.
We're Orchids.
