

# I Miss You

Sarah Geronimo

Why did I go  
And stay away  
Trying to move on  
To find my way  
It's been so hard  
Being without you  
Now my days have never been the same

Well babay I miss you  
I really miss you  
I'm so sorry things didn't turn out as

Planned  
And now I need you  
I need you to be here right beside me  
To hold me and guide me with your love  
I miss you  
I miss you

Sleepless nights  
Thinking of you  
She'd a pride  
And broken dreams  
Didn't know love  
Til I found you  
Now it's over  
And I think it's to late

Well babay I miss you  
I really miss you  
I'm so sorry things didn't turn out as

Planned  
And now I need you  
I need you to be here right beside me  
To hold me and guide me with your love  
I miss you  
I miss you

Oh baby I miss yuou  
I really miss you  
I'm so sorry things didn't turn out as

Planned  
Been thinking about you  
Dreaming about you  
How I wish I could have you back in my

Arms  
And now I need you  
I need you to be here right beside me  
And to hold me and guide me with your

Love  
I miss you  
I miss you  
Been thinking of you

I miss you
