

# If You Could Read My Mind

Sarah Geronimo

Everyday I realize a feeling that I cannot hide  
From you my friend if you could read my mind  
Everyday I'm hypnotized everytime  
you look and smile at me  
I see the heaven in your eyes

And everyday's a special day and  
every place a special place  
With you my friend when I'm with you

If you could read my mind if you could only see the signs  
I'll be yours from now just take this heart of mine  
I will be your everything and more  
I could be the one you're looking for  
For all we know my friend for all we know  
If you could read my mind

I never thought that fairy tales  
Wishing wells or happy tales come true  
But they do, Everyday (time) with you  
Everytime I'm feeling blue  
All I have to do is think of you and then  
You'll fill my heart with love I never knew

I'll never waste a single day  
With you I'm always all the way  
With you my friend when I'm with you

If you could read my mind if you could only see the signs  
I'll be yours from now just take this heart of mine  
I will be your everything and more  
I could be the one you're looking for  
For all we know my friend for all we know  
If you could read my mind

When problems get me down  
Only you can make the day end right  
When I'm with you

If you could read my mind if you could only see the signs  
I'll be yours from now just take this heart of mine  
I will be your everything and more  
I could be the one you're looking for  
For all we know my friend for all we know  
For all we know my friend for all we know  
If you could read my mind  
If you could read my mind... if only you could read my mind
