

Peace Is All We Know

Sarah Geronimo

This is gonna be the day
Nothing gets in the way
Let peace and love be friends in this world
If we all keep joining hands
I know we'll understand
And then we'll find the way to make it

We'll make a brighter place
Oh, for all the human race
Lift our spirit high above
We can overcome with love 'cause

This is gonna be the day
Nothing gets in the way
Let peace and love be friends in this world
If we all keep joining hands
I know we'll understand
And then we'll find the way to make it
Trust, la la la
Hope, la la la
Love, la la la la
Peace is all we know

We can be a family
Oh, if we let ourselves believe
There's a world with higher ground
If we only look around and

This is gonna be the day
The future can be saved
We're gonna make a change in this world
If we do all that we can
I know we'll understand
And then we'll find the way to make it
Trust, la la la
Hope, la la la
Love, la la la la
Peace is all we know
