

## So Heartbroken

Sarah Geronimo

Sifting through the memories  
Of the times you were with me  
Now they seem so very long ago  
All the good and bad  
All the happy and sad  
Made me who I am

Never took for granted that you'd be with me forever  
I was always hoping  
That somehow you'd stay  
Written in the stars in the heavens above  
I would send my prayers but

When you walked away  
Something deep inside of me sees  
I'm Heartbroken

Everyday's a mystery  
Wondering if love will find me  
Will I ever open my heart again  
Will the pain subside  
Disappear in the night  
Bringing hope in the time 'cause
