

# We Are Tomorrow

Sarah Geronimo

What do we have to do?  
To make our dreams come true  
Where do we have to go?  
To find the chosen notes  
We can make it if we try  
Without anger without pride

How do we find the sight?  
To see what's wrong or right  
When will we see the day?  
When peace on earth forever reigns  
We can make it if we try  
No more sorrows no more lies

We are tomorrow  
We are the hope for a better day  
We are the future  
If stand strong and find a way  
We can make a brighter sunshine through  
This darkness of our lives

Why do we have to fight?  
If people say that love is might  
Can't we forget the hate?  
And together march to heaven's gate  
We can make it if we try  
No more sorrows no more lies

Repeat Chorus

If every body can see  
If every body can see  
If every body can believe  
If every body can believe  
Repeat chorus
