

Your Christmas Girl

Sarah Geronimo

All the streets look so pretty
With the lights shining in the city
"Silent Night" playing on the radio
You and me here together
Nothing else could be better
Than kissing you underneath the mistletoe

I don't need anything
That's for sure
Cause right now I've got it all
All I want in this world
Right at the top of my list
My number one wish
Is to be your Christmas Girl
I just wanna be your Christmas Girl

Hear the sweet sound of singing
Church bells that are ringing
Can't you feel christmas magic in the air
Hand-in-hand couples strolling
The good times rolling
I'm so happy to hold you and have you near

I don't need anything
That's for sure
Cause right now I've got it all
All I want in this world
Right at the top of my list
My number one wish
Is to be your Christmas Girl
I just wanna be your Christmas Girl

And all the pretty gifts under the tree
Don't hold a candle next to you and me

I don't need anything
That's for sure
Cause right now I've got it all
All I want in this world
Right at the top of my list
My number one wish
Is to be your Christmas Girl
I just wanna be your Christmas Girl
