

Came On Lion

Sarah Harmer

Closer than a girl can get to trouble
If she hasn't yet got in it

It started out like any show
Up from the dark to the light's warm glow
Did you hear the dedication
When I came up on the stage
And you came on lion
All courageous
And I stepped up to your cage
Just to see if we would go
I crossed the bridge
I thought you'd know

Now my sun is up
Already hot
With two rays on
Two straying thoughts
But each one warm to make me glow
Or burn me if I'm not careful
It's not hard
It's too easy
I get it and I get to be
Closer than a girl can get to trouble
If she hasn't yet got in it

So now can I step lightly back between
Where you are and where i've been
Back inot that thing we do
Where it's me and it's jst you
And it's not hard
It's to easy
I get it and I get to be
Close than a girl can get to trouble
Without getting in it
