

Nurture It

Sarah Jaffe

Many men will harbor
though your heart beats free
don't turn 'round my lover
revert your eyes to me

Let me tell you what to do
let me make a joke or two
what a complicated smile
let's look after it
we'll nurture it

Let me tell you what to do
let me make a joke or two
what a complicated smile
let's look after it
we'll nurture it
