

Run Away

Sarah Jarosz

Follow me down through the cotton fields
Moon shadow shine bright the way you will
Lead us down a road
where no one goes,
We can run away

Come take my hand while I'm waiting here
Get away from it all and find what's real
If we don't get out now
the chance won't reappear,
We can run away

Hold me tight and don't let go
Sweet and soft no one will know
We can run away

I buried my heart in a willow tree
You came along, gave it back to me
Now we're creatures of the night,
we set each other free
Run away with me

Hold me tight and don't let go
Sweet and soft no one will know
We can run away

Lay with me down by the riverside
Stars in the sky shining in your eyes
We won't make a sound no one will be around
We can run away

Hold me tight and don't let go
Sweet and soft no one will know
We can run away
We can run away
We can run away
