

Little London Night

Sarah Slean

Little London night
Shiny pavement yellow red and white
O that I have seen this

The women and the men
A theatre so thin and danced to death
When do they know they mean it?

A grey light in an English Room
My head so full of missing you
You my lover you
My lover o say you know

O and we are young
No night's too long
The boys all think they need it

And then it's time to leave
A starlight on the storms under our feet
Did I could to ten or dream it?

A grey light in an English Room
My head so full of missing you
You my lover you
My love o say you know
Say you know
Say you know
Say you know
Say you know
