

## Little London Night

Sarah Slean

Little London night  
Shiny pavement yellow red and white  
O that I have seen this

The women and the men  
A theatre so thin and danced to death  
When do they know they mean it?

A grey light in an English Room  
My head so full of missing you  
You my lover you  
My lover o say you know

O and we are young  
No night's too long  
The boys all think they need it

And then it's time to leave  
A starlight on the storms under our feet  
Did I could to ten or dream it?

A grey light in an English Room  
My head so full of missing you  
You my lover you  
My love o say you know  
Say you know  
Say you know  
Say you know  
Say you know
