Ogoni Star

Sarah Slean

There's an Ogoni Star in the sky shining shining bright There are stars of your Brothers in the sky shining shining bri ght And you can't say you're not afraid You can't say you're not afraid I stopped to listen would I burn with them would I waste the ni ght?

So dance you people dacing away your lonely tears Dance for freedom dancing away you lonely tears Do you see the stars in the sky shining shining bright? See the stars and the Sisters in that sky shining shining brigh t

O you can't say you're not afraid O almost we're all afraid If I stopped to listen wuld I burn with them? Would I waste the night?

So dance you people dancing away your lonely tears Dance for freedom dancing away your lovely tears Dance you people dancing away your lonely King Dance for freedom dancing away you lonely King
