

Sweet Ones

Sarah Slean

They're counting on a guilty conscience to save you
But I'm banking on the deep blue eyes and the face too
They always said always said always said you were easy
If I could have just one piece of that I'd be
Sold

Come over to the sweet ones baby
I'll tell you where to go
I can't see them when they're walking sideways I don't know
I don't know

Come over to my house I'll tend to you solo
So fabulous and well dressed up like a talk show
They always said always said always said you were easy
If I could have just one piece of that I'd be
Sold

Come over to the sweet ones baby
I'll tell you where to go
I can't see them when they're walking sideways I don't know
I don't know

Oh so sad we
Love you madly
Want to take you home

If I could have just one piece of that I'd be
Sold
Come over to the sweet ones baby
I'll tell you where to go
I can't see them when they're walking sideways I don't know
I don't know
